This report is informational scoring only. It is not legal advice and creates no attorney-client relationship. Project Blackout is not a law firm. Consult a licensed Canadian attorney before acting on any item in this report.

Methodology

Project Blackout scored the text of every post in your Facebook data export against a curated set of patterns mapped to specific Canadian statutes. The patterns are conservative — they are designed to err on the side of missing questionable content rather than over-flagging protected political or religious expression.

Statutes referenced

- **Bill C-9 / Online Harms Act** — content categories in proposed s.6(1).
- **Criminal Code s.319** — public incitement of hatred, willful promotion of hatred against an identifiable group.
- **Criminal Code s.83.218–83.231** — terrorist activity, recruitment, propaganda, financing.
- **CSIS / RCMP public advisories** — publicly-named extremist slogans and framings (advisory only; not all of these are criminal).

What we did NOT score

- Images and video frames (text only).
- Comments made on other people's posts (your export may or may not include them depending on what you selected).
- DMs / Messenger conversations (separate download, separate handling).
- Public-record context (court rulings, news reports) — context is your responsibility to add.

Three tiers

Tier 1 — Probably not concerning. Informational; flagged for personal-hygiene reasons (venting, personal relationships, work).

Tier 2 — Potentially problematic. Does not necessarily violate a statute but may attract attention under the new Canadian regime. Review for context.

Tier 3 — Statute-level match. The text matches the elements of a Canadian criminal offence on its face. We strongly recommend consulting a licensed Canadian attorney.

This report is the product. The deletion plan on the final pages lists every flagged post with instructions to remove it via Facebook's Activity Log.

Findings by tier

Tier 3 — Blatantly anti-government / immigration / matches statute — referral recommended

These items appear to match the elements of a Canadian criminal offence. This report is NOT legal advice. Project Blackout strongly recommends that you consult a licensed Canadian attorney before taking or refraining from any action.

Tier 3 — CC s.83.222(1)(a)

Date: 2020-11-22 00:00 UTC **Post ID:** pf_fake_0002_1606003200

Deletion plan

Facebook has no public API for post deletion. Execute these steps manually via your Activity Log. If you'd like a Project Blackout operator to walk you through this on a screenshare, reply to the delivery email and we'll book a session.

1. 2019-07-04 00:00 UTC

We need to exterminate the immigrants, they are an invasion. Send them all back.

- Open your Facebook Activity Log: <https://www.facebook.com/me/allactivity/?p=00011562198400>
- Use the date filter (2019-07-04 00:00 UTC) to find this post
- Click the three dots (...) on the post
- Click Delete, then confirm
- Reference post ID: pf_fake_0001_1562198400
- Screenshot the 'Post deleted' confirmation and email it to confirm@projectblackout.ca for your records

Final note. Deleting a post removes it from public view. It does not retroactively un-prosecute any prior offence, and the recipient of the original post (e.g., a government agency) may have already cached a copy. This plan is risk-mitigation, not legal remediation.
